9 Friday POST-NATIONAL DEMOCRACY - NECESSITY & IMPOSSIBILITY

009-357 week 2

0700 At the beginning of modern liberal era
 0730 stands Hobbes - rational sovereign
 0800 state-power to prevent man vs man
 0830 - democratic state power
 0900 people sovereignty - parliamentary
 0930 self legislation

The nation -
 state
 1994
 600

1910

The frame work has been the nation-state - european nation states overcome this feudal heritage - dynastic, vassal lordly time - the rule of law - democracy

1330 But this democracy is overtdan
 1400 by deregulated economy and
 1430 decision made outside politics.

1530

1600 Is democracy linked to the nation-state?
 1630 Can we update international law & people's rights

1730 Can we move beyond the nation state

1800 Is scale & cultural diversity
 1830 an obstacle to cosmopolitan
 1900 democracy

The Times. Letter to the Editor

0730

30 April 2004

From Ms Georgina Bardoun.

Milton Keynes.

0900

The elite of the professional politicians

0930

seem in recent years to have come

1000

quite disproportionately from a

1030

background of law. I cannot think

1100

of anything more inappropriate or,

1130

in fact, more dangerous. The law

1200

teaches you that nobody yet can

1230

is for more important than

1300

ready the right decision

1330

If our present PM and FS had

1400

received their undergraduate education

1430

in history rather than law, they

1500

they would not then have needed

1530

 MAY 2004 ⁹⁻¹⁷⁰⁰ ~~could be redefined~~ "rising 90s" - STIGLITZ

They ~~laugh~~ all over the place ~~(Economic)~~ rising 90s? Time Counter.
 3 Monday ~~Stiglitz~~ 124*242 week 19 ~~Stiglitz~~

0700 Chairman: Sir Tim Lasham: Globalization vs Discontent
 0730 Gyn - dropped in the last decade - 10yrs ago a blessing.
 0800 Deep countries hostility; was difficult to make steel. Now
 0830 national that Africa was worse off. Euphoria has
 0900 now gone: SEATTLE: // That was some success, i.e. E. Asia
 0930 growth & survival. Boxed Gen. In knowledge of. Did it in
 1000 their own way. Elsewhere not a success. Latin Am. Vietnam
 1030 most successful in 90s + Asia. Chile was successful
 1100 because it didn't follow IMF. ← ~~89~~ ⁸⁹ Cold War -
 1130 Mexico // 89 → economic policy driven by special interest -
 1200 trade negotiations driven by multi-national. E.g.
 1230 Austin admin: US Treasury objected to attempts to
 1300 clarify priorities. Disparity between domestic & int. policy
 1330 part of the problem is IMF & WTO. - appointment Kim Dae-jung:
 1400 market fundamentalism: invisible hand: i.e. world market:
 1430 free-up capital markets: too unstable: Deeply
 1500 countries: cannot absorb fluctuations. Certain crises
 1530 were not dealt with: hostility to redistribution
 1600 efforts. - sharecropping = tax = new form of concern
 1630 - indefensible accounting - kind of options - more
 1700 recognition of the problem - now in "development bond" -
 1730 Capital market liberalization now criticized by IMF
 1800 IMF is moving - but: - at least at rhetorical level:
 1830 IMF has not understood the idea of world banking
 1900 - a better website. Reopened on the idea of a
 Development Round. Our words are ~~not~~ tied "against
 has changed. WTO is a possible step - beyond of int. rules.
 Rule against U.S. steel & union. G20 Bush's isolationism

1300 171 [Frederic Jameson Modernism / Impressionism -
 1330 separated metaphors from colonial - mutually
 1400 exclusive cognitive + political exchange. Metaphor
 1430 posulates text perception - colonial 'brute' extract
 1500 'resistance'. This work says the boundaries
 1530 are porous + resistance was visible from Europe.]
 1600 Extending this point the contribution here is also
 1630 that the cultural and political
 1700 exchange between the convoluted
 1730 colonial centre and periphery, as well
 1800 as between subjects of the different
 1830 peripheries, unified in different ways in
 1900 the cultures of the centre 172 to form
 a complicated and interconnected world. [

 0730 The Tension between Universality / Particularity
 0800 National States - particular units: quantity / quality ^{difference}
 0830 quantity / quality in nation-states. Communicable concerns
 0900 Research lives in language because they can be translated.
 0930 The legitimacy of States + Communities - do
 1000 they have no right to exist? as subjects.
 1030 Are they legitimate. community means border
 1100 - +. exclusion. Basis of nation-state -
 1130 which represent particular interests. Borders:
 1200 set up to make economic enterprise free.
 1230 The democratization of the behavior - the
 1300 universality of the state. which affect in pluralism
 1330 A fallacy: (Montbrut - Age of Consent
 1400 falls into it) - World of Communism) but
 1430 the particularity is related to a difference
 1500 in essence (he denies this) and is
 1520 possible to argue for a World State) - the
 1600 idea of an essence provides an internal homogeneity
 1630 - different societies = different species =
 1700 - numerical difference - some essence -
 1730 territory - different responsibilities - two
 1800 different republics. / NO does that we have
 1830 different essences - in duties and responsibilities.
 1900 Montbrut believes in imminent universality -
 Human beings have always put down hard-
 core identity has now grown. Oestfi Runt
 reason has always been universal. W so

Haugen Story Two

Two theories of democracy:

1100
 1130
 1200 Habermas = pupil of Carl Schmidt. The Structural Trust of the Public Sphere.
 1230 i.e. is there something decisive about his own Schmidt / Hitler
 1300 Schmidt: clash of ideas - liberalism, individual freedom -
 1330 state out except useful as it facilitates freedom. Schmidt
 1400 the public sphere is not where politics really takes place.
 1430 For Habermas is worried about the decline of the
 1500 public sphere & effect on authoritarianism. The justification
 1530 of positive law The Will of the People cannot be
 1600 an act of acclamation. Must be decided in a
 1630 particular historical situation

The undoing of Apartheid

week 32 218-148

Thursday 5

0700 - v. difficult. The new non-racial desegregation. May
 0730 of us thought that the conflict would be about
 0800 poverty race + redistribution IN FACT, it was been
 0830 around sexuality esp. AIDS & Sexual Violence - public.
 0900 The young AIDS has been the predecessors of the
 0930 Aids. ITC: infant baby-rate discovered: this was unexpected
 1000 Sexual politics was not recognized. Why has Democracy
 1030 led to this. To answer this we need to distinguish
 1100 between political (always more) and politicization -
 1130 only intermittently - & it becomes a less comfortable
 1200 weave. Post Apartheid is experiencing such a moment.
 1230 1) AIDS + rape. - ~~was~~ was ~~not~~ becomes ~~discussed~~
 1300 why is how is sex so widely discussed in
 1330 PASTA - why is sex talk the talk of politics.
 1400 1994 -> the liberation of sex - SA's heavy policy -
 1430 sex talk inhibited. Sex was a private matter. laws
 1500 of decency. This was fundamental to Apartheid.
 1530 Sex is now in The Public Eye. But there are
 1600 nodes in this discussion. ① The eroticization of liberation
 1630 Sex sells. - globally & SA can take part. - sex/consumption
 1700 in SA sex & personal liberation/consumption is linked
 1730 The new young black elite sex/style. - the new political
 1800 freedom. Its assertion is also a statement on freedom
 1830 This is evident in body and talk hip culture especially
 1900 male is sexy. ② Sexual ^{self danger} violence, AIDS. Mandela &
 Mbeki were coy + reluctant. NGOs have tried to get
 people talking - sex becomes identity - & also dangerous.
 Sex is a the use of no self ③ rape. Full this toys no
