

Magistrate's Office,
Durban.

28th August 1905.

Dear Dr. Haddon,

I hope you had a pleasant journey after leaving the neighbourhood of Durban.

I write merely to say that I managed to get the egg-shells you saw stuck over our friend Mashumi's doorway, as well as another, though older, similar

set. These are being posted to you
at Inisfail, Hills Road, Cambridge
direct as they would no doubt be
awkward for you to carry about.

They are carefully packed in cotton-
-wool and I think should reach
their destination intact. I put
in a few extra sticks (grass) on
which they ^(egg-shells) are usually kept.

I enclose a specimen of
the photo I took of your party
but have not had time to tone.

I am printing out several to
send when you are once more 'at
rest' in England.

I am,
Yours very truly,
H. H. H. H.
