

Assembly room Town Hall

18.8.05
Abbotside School

My dear Professor Haddon—

Hearing from Prof. v. Luschan that they expected to meet you here at luncheon, I came on the chance that the ladies might perhaps be here already—

I want to say on paper what the exigencies of the situation at the lecture this morning (increased so much by my own great deafness) rendered impossible—

viz: what a pleasure it was to me to have the opportunity of making your acquaintance & how truly glad I should be if in any way I can

further any object of yours — The chief part
of your Bushman material is in the hands &
trusty care of an elder sister, Miss L. C. Story,
Kennebunk Seneca 9/5th and Charles Allen Leung-
Berlin; — but we have many ~~of~~ things still
here, of no interest to you — so far as being in the
"throes" of moving renders it possible to do
so, we gladly either show or tell you of them —
we are at Charlton House by night & early
morning — & chiefly at "Hill Crest", Alphen
Hill, Wynberg all day — Should, in the short
time still at your disposal, it be possible for you &
Mrs Haddon to look in upon us, you will be
most welcome — if you will with kindly excuse find
me in the middle of unpacking —

I have to go out to Hill Creek now to help
in the stowing away of an 13 1/2 tons of
freight baggage I came in May already
in our late flat Knobel's plu 8.4

Please excuse all the faults of
this hasty note - & please remember
me most heartily to your Uncle & Aunt
when you see them in Johanna.

Very faithfully yours

Jemima C. Bleek

P.S.

Should have taken you to Craddock (Cape Colony)
by 4th daughter, Miss D. Bleek, who has learnt a good

deal of Nurture in my sister Lucy, &
studied Swaheli & did herself -
is teach at the "Girls' High School"
Rockland, Capadock -

(I could perhaps tell you more than
the rest of us - as she helps her
Aunt Lucy (so far as the latter would
let any one help her), during the last
8 or 9 years at Plymouth & Charleston

J. C. B.
