OFFICIAL REPORTS.

The following reports of Captain Allison and the Resident Magistrate of the Upper Umknownait Division, as to their movements on the expedition. A force marched to the support of the Magistrate of the Upper Umknownait Division, as to their movements on the expedition. A force marched to the support of the Maniyama Pass, dated December 4th, I reported that I was on the point of ascending that Pass of the Drakensberg, for the Jungoted Frenching and thirteen prisoners.

The Hon, the Securitary for Native Artains, Su.,—In my last letter, from the food with a loss to them of three men in possession of the cattle had been attacked before daylight by the rebels, who had been beaten off with a loss to them of three men the lore of the Maniyama Pass, dated December 4th, I reported that I was on the point of ascending that Pass of the Drakensberg, for the Jungote of the Maniyama Pass, dated December 4th, I reported that I was on the point of ascending that Pass of the Drakensberg, for the Information of His Escellency the Licutemant Governor, that I ascended the said Pass on the Korigan River, one of the tributaries of the Corange River, I came upon the spoor the robel tribo, and on the 7th instant of the Corange River, I came upon the spoor of the robel tribo, and on the 7th instant I should accompany bis force with the 4th Volunteers and a small native force of 70 men. The remainder of my native contingent (about 300 men) I sent back to Natal.

I enclose copy of my correspondence with Capitain Allison on this subject. As that officer will have reported in detail the move for some of these pulses of the impact of the pulsaries of the formation into Natal, for the pulsaries of the pulsaries and the hesseem suggestion. The comments on the expedition, are published in to-day's Genth:—

Resident Magistrate.

Sin,—I have the honour to acknowledge the receipt of your letter of to-day's date, and most cordially accept the offer made therein, and will unite with you heart and hand in pushing on and completing the object of the expedition.

Both the Europeans under my command and myself will share and share alike with you and your men, as far as our stores go. I have no objection to ration the 70 natives you propose to retain, when their present stock of cattle is exhausted. Your resolution to dismiss the remainder of your native force is, I think, a wise one, as we shall have sufficient men without them, and it will be more difficult to procure further supplies of cattle in Bastoland than provisions for the Europeans.—I have the honour, &c.

Leaving a strong rear guard, a pursuit as bid as the country would admit of was unenced at daylight on the morning of an 12tin inst. By noon of that day, many exhausted cattle and horses had been passed, and at 4 pam, a large herd of cattle was seen in a valley about 25 miles N.E. of Leribe. A body of nem was sent down the slopes, of the head of the Malati Range, which dispersed the rebels, killing one, and capturing all the cattle. The main body of the pursuing column meanwhile kept upon the spoor, which by a circuitous route entered another valley, to the northward of the one already mentioned. At the halt of that night, a small party of mounted men was

The rebot chief and his immediate followser (about fifty in all) surrendered thenselves at Molapo's.

From other sources, I learn that messengens from Molapo reached Langadibalele at
the Drange River, with the information that
the pursuing column had left Natil on his
spoor, and inviting him to come on. The
position was now completely changed I cangatibalele and the bulk of his property, had

Molapo, as he feared it would unsettle the
people living there, and the Baautos generally.

On the following morning, accompanied by
Mr. Hawkins, I visited Mr. Griffith at the
camp of the Mounted Police. I found him
quite prepared to hand over to me the prisoners, consisting of the rebel Chief, five of
his sons, and some councillors (twelve in all),
but under the impression that the captured
cattle, of which he had, he informed me,
about 5,009, ought to be distributed amongst
the Basatos employed in taking them (or
rather, for there was no conflict, for collecting
and driving them from the valley to where
they were then being herded). Mr. Griffith
had, I believe, employed patrols of Basatos
to make distant journeys into the Mahui
range, in acrossion.

Natal Government I proveded Senior that
had, in property had been followed by me,
and found in the possession of certain natives

OFFICIAL REPORTS.

The following reports of Captain Allison and the Resident Magistrate of the Upper Umknownait Division, as to their movements on the expedition. A force marched to the support of the Magistrate of the Upper Umknownait Division, as to their movements on the expedition. A force marched to the support of the Maniyama Pass, dated December 4th, I reported that I was on the point of ascending that Pass of the Drakensberg, for the Jungoted Frenching and thirteen prisoners.

The Hon, the Securitary for Native Artains, Su.,—In my last letter, from the food with a loss to them of three men in possession of the cattle had been attacked before daylight by the rebels, who had been beaten off with a loss to them of three men the lore of the Maniyama Pass, dated December 4th, I reported that I was on the point of ascending that Pass of the Drakensberg, for the Jungote of the Maniyama Pass, dated December 4th, I reported that I was on the point of ascending that Pass of the Drakensberg, for the Information of His Escellency the Licutemant Governor, that I ascended the said Pass on the Korigan River, one of the tributaries of the Corange River, I came upon the spoor the robel tribo, and on the 7th instant of the Corange River, I came upon the spoor of the robel tribo, and on the 7th instant I should accompany bis force with the 4th Volunteers and a small native force of 70 men. The remainder of my native contingent (about 300 men) I sent back to Natal.

I enclose copy of my correspondence with Capitain Allison on this subject. As that officer will have reported in detail the move for some of these pulses of the impact of the pulsaries of the formation into Natal, for the pulsaries of the pulsaries and the hesseem suggestion. The comments on the expedition, are published in to-day's Genth:—

ARHUER C. HAWKINS, Esq.
Resident Magistrate.

Sin,—I have the honour to acknowledge the receipt of your letter of to-day's date, and most cordially accept the offer made therein, and will unite with you heart and hand in pushing on and completing the object of the expedition.

Both the Europeans under my command and myself will share and share alike with you and your men, as far as our stores go. I have no objection to ration the 70 natives you propose to retain, when their present stock of cattle is exhausted. Your resolution to dismiss the remainder of your native force is, I think, a wise one, as we shall have sufficient men without them, and it will be more difficult to procure further supplies of cattle in Bastoland than provisions for the Europeans.—I have the honour, &c.
