

[Nov 1933?]

So you are still going on higher, I wish you would ^{get} a good matter, as you did in Sts. v vi. I heartily congratulate you for your success in these series, they are really interesting, instructive, & educative. The name of "Bene" will still be a household name for four more generations to come.

I am still thinking over other articles to write & send you, especially the one on Imbeko.

You ask me for some pieces from Ityala & from several other pieces. By the way, what do you mean by "the beginning" on Ityala, - I think you mean the 1st chapter. Of course I agree that you get all the pieces you wish for. I say so now as I said so before. But, Mkhuluwa, as I am still going on with my new huts, I would ask you, if you can manage it, to send me a cheque for the pieces you've already chosen.

I've not yet found out what title should be given to this series reader but I think

"Incwadi yezifundo Ezipakamileyo"
With Best Wishes,

Yours very truly,
