Editorial Notes

We sincerely hope that the efforts begun by some of the leaders of public thought in Graham's Town to organize a Political Union for the Colony may succeed. A very extensive scheme of union has been proposed by the Government of the Union, which we believe to be the object of the Association to be "to promote the political, commercial, and educational interests of the Eastern, Southern, and Northern districts of the Colony. The Association shall be composed of local branches throughout the districts named. The names of the Executive Committee of the Association shall be elected at the registration of members in their respective constituencies; it is to secure the return of suitable representatives to parliament; and it is to further the objects of the Association in their own respective districts." A branch has already been formed in Graham's Town, and it is a pleasure to hear that it will be followed by other branches. This scheme, we think, is a very desirable one, and we believe that it will be successful. It is a step towards the unity and progress of the Colony, and we believe that it will be followed by other branches. It is a step towards the unity and progress of the Colony, and we believe that it will be followed by other branches.
