Kalk Bay: read Hunt's Heads - will be useful, check bibliography

RE-think - on re-vict 1-10 - re-organise
EITHER ~ chronological branding - analysis

TS from 1810 - 1846 OR - just chronological
background - Natal - the borders of the kingdom
- the wedge between the mountains and
the kingdom, the bushveld the Zulu - . BUT

whatever approach I must come to terms
with Mfecane theory - pushing forth
migrating - people don't just move -
they take substance with them - a
big seize out of obs - & the
environment is now made - use of
defects on use - no critical point
- mfecane - no legs possible to
escape - & it

No boundaries to history either in time
or in space - cut out a small
area & how colonial was established

Back from Cape Town, Mamoloni &
begin "The Zulu Concept of Property"
- or should it be 'Networks of Exchange'
Mamoloni & Lulu certainly - but also
get the ofang right - the semi-circle
which was Natal - vs the centrality
by done - it all fits an elegant
argument.

The Nyakwaka ~ reflect the Zulu system - see
Godfrey Wilson.

Crochet: dull. Back to vegetarianism. ^{* JP - RU - TW} Trying
to find a way in to the book and as
a result being forced back to the McEone.
The weaving of people's lives: Sheep's
fur at Morley for example. Then Fether,
Nehapaji, Fodo, and the continued violence -
What about stressing the violence of the
McEone - as a result of no desperate
need for economic security - W Sheep's
contact with the emaciated - &
rooting this in the economy & its
fragility under certain conditions -
for this must be seen as the background
to Colonial Natal - although w/o the
stale racism of course. // Chase, Natal II
Papers Boshoff's account of Free State forests -
almost a list of what a forest desires / no forest,
no interference with movements, easy access to
markets. // Gardiner: 239 was 'locations' // Also
read ~ early Natal from Chase Bird etc to
try and get Natal commands right.
Must wonder abt. too much in the
literature! But Gardiner on the skeletons
at Fabu's - it is this that has to be
confronted ~ bring back the McEone.
The descriptions can be analysed from
the Natal Material. A more ordered
system of reading is needed - what
about 1) Writings + 2) Ready -
McEone After the Mc. Cape Press

* RU

Mpecane Affirmation . NE - on porachis, & the historiography of the Great Trek.

(*) Matters & Sewants . CJB/SALB 1975

(*) du Toit - African Political Thought.

Extraordinary . NE / MFA/Am 48 deals with Natal as place of Trek speculation - and this can be matched with Region 202 Great Treks remains important & useful. Eg

Napier's treaty system - 1842 - to protect Griqua & Sotho from Boers - unworkable because what is land - must move beyond - different concepts of land, land could be occupied but not owned:

could take examples from all over SA - land was where people were - got no land -

no sense of the individual - ownership -

I prefer the economic - but -
I say the social can be more

the author must show the

4 Constitutional Classes of Colonies

1) The old English model - i.e. B. Colonies
some West Indies, elected assembly, upper house
nominated - governor to agree to enact laws
- a mini-parliament.

2) Crown Colonies - Crown has power
of legislation - sometimes with a
nominated legislative council.

3) Complete or partial representative
institutions - i.e. Cape Colony.
first trial - two elective chambers.

4) Constitution framed by Acts of Parliament
- Victoria - the constitution by
which makes laws for India.

All 50 are different but have in common:

- 1) Gov has the right of veto + Exec Council
- 2) Crown can disallow laws acts of
the legislature.

In responsible govt the Exec Council
holds office with support of the legislature.

Remaining links

- 1) Legal omnipotence of parliament
- 2) Crown can disallow colonial laws
- 3) Military protection
- 4) Gov authority derived from Crown.

1)

Davenport attempt.

VOC - ^{free will} grants & loans, on 1732 a quit rent location - 1870 rules.

Systematic Colonization ≠ Cape.

Peace is not synonymous with non-violence.

Peace is the presence of Justice

Peace - by non-violent or violent means

Moves to an end, - all our war & peace

What was Luthuli? 1) What was the context?

2) What was the theory?

1) Mandela did not eventually persuade Luthuli to give up violence. Raymond was ambivalent - + Albertina. Masses fully trained.

MK made the masses spectators

Yet another idea - The Labour Commission, Peffercone wants the locations as a place of settlement of its and the formulation of a independent personality, the small landed proprietor - not important only in itself - but gives a structure - for a book ending in 1862. By the end of the year.

So it is "Forging a Story" - and the Boneworth is decided by the demands of capital accumulation - but it is capital accumulation supported by another system and pushed one. Antislavery in North - and on just beyond it ZK - & in among his people

The refusal of 1847 Commissions proposals wasn't meaness - it was that were against the ~~other~~ demands of the age - ways against colonial independence - representation political - when you are economically independent.
